Custom example

To show you how easy it is to customize your service, here is a 3-line example.

Line 1- Main office line, published telephone number, your customer must always be able to reach you on this line. You might choose QCB Plus with Business Voice Mail, Call Forwarding and Call Waiting.

Line 2- Rolls over from the main line to ensure your customers can reach you when your main number is busy. You might choose QCB Add-A-Line with series hunting to move the call from the main number to line 2.

Line 3 – This might be your FAX and credit card line and does not need to tie into your main number. QCB Add-A-Line without any features can handle FAX and credit card verification duties.

Choose the package that fits your business and enjoy customized, cost effective business phone service from Qwest.
